Ayoub Ait Chikh

Full-Stack Software Engineer (Java / Spring Boot, React) – Recent graduate seeking a first professional role

Rabat / Salé, Morocco | +212 718481048 | ayoub.aitchikh23@ump.ac.ma | LinkedIn | Portfolio

Professional Profile

Software engineer graduating in 2026, focused on backend development and application architecture. I like understanding how the technologies I use work under the hood, and I enjoy working in a team to design robust, maintainable solutions. My experience covers a banking database migration (Oracle to PostgreSQL), a SaaS product built with Spring Boot and React, and applied AI (RAG pipelines in Python).

Professional Experience

Software Engineering Intern (final-year project) – Crédit Agricole du Maroc (CAM / Al Filahi Cash) ***March – July 2026***

- **Data Migration (Oracle → PostgreSQL):** Migrated the schema, stored procedures and several thousand rows of data for 2 modules (Transfer and Deposit) in a staging environment.
- **Backend Refactoring:** Refactored 2 PL/SQL procedures into Java code using JPA/Hibernate, removing direct JDBC usage.
- **Technical Research:** Conducted a study of the differences between Oracle and PostgreSQL (data types, PL/SQL vs. PL/pgSQL, NULL and empty-string handling, sequences), the problems encountered during a migration and their solutions, as well as production risks and mitigation strategies (testing on a staging environment, data validation, rollback plan).
- **Application Architecture:** Analyzed the application's architecture, in particular the roles of Consul and Keycloak.

Software Engineering Intern – Client Projects ***October – November 2025***

- **Application Development:** Designed and implemented software modules for real clients in an Agile environment.
- **Integration & Quality:** Modeled business logic, integrated REST APIs and refactored code to improve maintainability and responsiveness.

Software Developer – AI Conform (SaaS, European Market) ***March – June 2025***

- **Full-Stack Development:** Developed a GDPR compliance assessment SaaS with Spring Boot (backend) and React (frontend).
- **AI / RAG (Python):** Built a RAG pipeline in Python that lets DeepSeek classify the points of legal documents as compliant or non-compliant with GDPR.
- **REST Security:** Implemented 15+ REST endpoints secured with Spring Security and JWT authentication.
- **Performance:** Optimized the backend, reducing overall response time by 25%.
- **Deployment:** Containerized and deployed the multi-service application with Docker and Nginx.

Personal Projects & Open Source

Personal Projects & AI Experimentation ***2025***

- **RAG & Vector Databases:** Built a RAG prototype on fictitious company data so that an LLM answers questions from proprietary documents and hallucinates less.
- **Multi-Agent Framework:** Experimented with the CrewAI framework.
- **Backend Services:** Built backend services for personal applications, applying software engineering best practices.

Open Source Contributions

- Contributed twice to open-source projects (bug fixes, backend features), including code review with the maintainers.

Education

State Engineering Degree in Computer Engineering *2021 – 2026*
Mohammed First University (UMP) – National School of Applied Sciences (ENSA Oujda)

Technical Skills

- **Languages:** Java, JavaScript, TypeScript, Python
- **Backend & Architecture:** Spring Boot, JPA/Hibernate, Spring Security/JWT, JEE, Symfony, Django, REST APIs, Microservices
- **Frontend:** React, Next.js, Angular, HTML5/CSS3, Tailwind CSS, Material UI
- **Databases:** PostgreSQL, MySQL, Oracle DB
- **Quality & Methodologies:** Clean Code, Design Patterns, REST testing (Postman), Agile
- **DevOps & Tools:** Git, Docker, Nginx, Linux
- **Applied AI:** RAG, Vector Databases, LLM integration (DeepSeek), CrewAI, Machine Learning, Deep Learning, NLP

Certifications

Oracle OCI: Generative AI Certified (2025) | **Udemy:** Advanced Java (2025) | **HackerRank:** Problem Solving (2025)

Languages

Arabic: Native | **French:** Professional proficiency | **English:** Professional proficiency

Interests

Reading US tech magazines, watching US TV series, long walks
